Colas Rail Class 86

Colas to use 86701 for a trial...

On 3rd September 2012 it was announced that Colas are taking 86701 for use as a trial. As a part of the agreement 86701 will be out-shopped into Colas' livery at Washwood Heath. Details on the trial will be published by Colas in due course.

In the meantime there is but one reference image of 86701 in an as yet incomplete Colas Livery. This pack takes what I know to be a Colas Livery and completes what the Class 86 should look like when the repaint is done. Should an update be required, I will repost this pack.

Scenarios

Colas Rail Class 86 reskin test

Description

A free roam scenario to check that the reskins appear in your game.

Installation

Unzip this package to a temporary folder, e.g. C:\Temp and click on RW_AssetSetup.exe

The installer will open and should display the path of your TrainSimulator folder. If not, click on the '....' button and navigate to your TrainSimulator folder in Steam. Click the 'Install to TrainSimulator' button and the reskin files will be installed.

Clear the Blueprint Cache.

Open TrainSimulator game, Select Main Menu, Select Game Settings, Select Tools then Select Clear Cache. Your game will restart.

Install the Scenario using the Package Manager; you will have to run the **Utilities.exe** found in your `Steam\steamapps\common\railworks` folder

v2.0 Release

Colas Rail Freight logo changed from Hat to Freight. Coaching lines added to roof front. Number added to nose. Door numbers lowered.

v1.0 Release

v1.0 Initial Release
