Railworks Train Simulator TS2012

Rolling Stock

Marleyman

A Class 47 looking a bit worse for wear at the Yard.

The Pack

This pack contains the Train Simulator 2012 default class 47 stock locomotive re-skinned to look both Weathered and Rusted.

There is one Scenario included with the pack and that is there for you to check that both the models show up in your game. The scenario is for the default Newcastle to York route and is under the Standard Scenarios tab; titled **Class 47 (Rusty) Mixed Freight to Gateshead**.

Terms and Conditions of Use

The content included with this pack can be used in any scenarios. You are not permitted to redistribute this pack or any scenarios that contain the actual re-skin.

These files are © Marleyman.

Marleyman is not responsible for any damage caused from the use of these files.

These re-skins and any of the associated files may not be retro-engineered or used for any purposes other than the original intended use.

Persons may not modify these files or any associated files in any way.

These files must not be re-distributed in any form.

Scenarios made with these re-skins must not be distributed with the re-skin files. You should advise players that they must purchase the re-skins for any user made scenarios to work.

By purchasing this pack, you have agreed with these terms and conditions of use.
