

# RSC/KUJU Class 55 Deltic Correct Liveries and Numbers

---

**Reskins of the Green Class 55 Deltic to a version with a full Yellow front which the Deltics were given from '66/7 until they were all painted blue.**

**Also included is D9010 which had the new BR Arrows logo on it whilst still in Green livery from Dec '66 to Feb '68.**

**Blue Livery – Pre-TOPS numbers, without the "D" as used on the Deltics between 1970-1974.**

**Blue Livery with White Window surrounds.**

New users (TS2013 onward) will need the **"European Community Asset pack"** if you don't have the Class 55 in your Kuju folder.

## **INSTALLATION**

**Install using the .rwp file and then open the "Railworks\Assets\Kuju" folder and open "Deltic Numbers Installer.bat" which will install the required .GeoPcDx files.**

In the in-game Editor the locos are identified as follows:

D9010 with its' Arrows logo can be found as:

***Class 55 BR Green\_Arrows\_***

All the others with Yellow fronts can be found as:

***Class 55 BR Green\_Yellow***

The Blue livery Pre-TOPS locos can be found as:

***Class 55 Pre\_TOPS\_***

The loco number can be selected in the fly-out on the top right of the scenario editor when you click on the loco.

The first letter selects the nameplate of the loco. The second letter is **"Y"** to have the number without a **"D"** or **"D"** to have the number with one.

***Class 55 Blue\_White***

Selected locos with white Window surrounds - 1979 onward.
