*RJ Corman Livery Pack*

## The RJ Corman Livery Reskin Pack

This livery pack started as just one reskin but that also meant that the loco was locked to a specific number which limits the placement to one loco in the livery or several locos all with the same number. With that in mind I researched a bit more, sought advice and started to expand the pack by one loco then another...

**The pack now has;**

**RJ Corman SD40-2 #3478**

**RJ Corman F7 #1940 both A and B units.**

**RJ Corman F7 #1941 both A and B units.**

**RJ Corman GP9 #9002 with a white roof (circa 2010 livery)**

**RJ Corman GP9 #9004 with a red roof (circa 2012 livery)**

**RJ Corman SW1500 a fictional livery in lieu of the SW2 and**

**RJ Corman SD40T-2 #8861**

**RJ Corman Woodchip Hopper in lieu of a Coal Hopper**

## Copyright

The content included with this pack can be used in any scenarios. You are not permitted to redistribute this pack. You are encouraged to produce scenarios and send them to [railworks@marleyman.co.uk](mailto:railworks@marleyman.co.uk). These will then be made available to all Website.

## Rolling Stock

The following default assets have been re-skinned and included in this package; You must own the route or pack listed below for the reskin to show in game.

**Default Stock** - SD40-2

**RSC Horseshoe Curve Route** - F7

**RSC GP9 Pack** - GP9

**RSC Donner Pass Route** - SW1500

**RSC SD75 Pack** - Woodchip Hopper blue

## Installation

To use the models re-skin with Railworks 2/Train Simulator 2012 TS2013 you will have to read the manual and follow these instructions in order to see the re-skins in the game. I do not accept responsibility for any damage to your installation or your PC.

How to Install

Unzip this package to a temporary folder, e.g. C:\Temp and double click on **RJ Corman Livery Installer.exe**. The installer will open and should display the path of your Train Simulator 2013 folder. If not, click on the '...' button and navigate to your Train Simulator 2013 folder in Steam. Click the 'Install to Train Simulator 2013' button and that's it.  
*Thanks to Mike Simpson for RWTools and the installer.*

F7 #1941

F7 #1940

GP9 #9002

GP9 #9004

RJ Corman Hopper

SD40-2 #3478

SD40T-2 #8861

SW1500 #1502

## Test Track Scenario

The pack also includes a Free Roam Scenario for the Test Track. This route is only available with TS2012 or earlier.

To install the Test Track Free Roam Scenario to check the reskins show up in your game;

1. Start the 'Package manager' using the Utilities.exe found in the folder 'Steam\steamapps\common\railworks'
2. At The top of the Train Simulator Utilities screen there are five tabs with options: Select the one Called Package Manager
3. Click the 'Install' Button on the right hand side of the screen that has now displayed.
4. It will open your windows file explorer. You will now have to use that to navigate to the .rwp file(s) you want to install. (In this case, RJ Corman Pack free roam scenario). This means it has to have been unzipped and you need to recall where you 'left it' so to speak. If you forget then just unpack it again and make a mental note.
5. Double Click on the *RJ Corman Pack free roam scenario.rwp* file to 'load' it.
6. Depending on how big the size is it will show a Green Bar as the 'package manager' installs the file.
7. Close the package manager.

v1.0 Initial Release

Known Issues None
